

BAB 5

KESIMPULAN DAN SARAN

5.1 Kesimpulan

Berdasarkan hasil kegiatan Praktek Kerja Profesi Apoteker (PKPA) di Rumah Sakit yang telah dilaksanakan secara daring, dapat diperoleh kesimpulan sebagai berikut:

1. Praktek kerja Profesi Apoteker (PKPA) dapat meningkatkan pengetahuan dan pemahaman secara mendalam mahasiswa calon apoteker mengenai peran dan fungsi seorang apoteker di Rumah Sakit, baik dari aspek manajerial maupun klinis.
2. Pelaksanaan PKPA di Rumah Sakit secara daring dapat membantu mahasiswa calon apoteker dalam memahami konsep *pharmaceutical care* dalam pelayanan kepada pasien sehingga dapat menerapkan konsep tersebut ketika terjun ke dunia kerja.
3. Pelaksanaan PKPA ini dapat membantu meningkatkan keterampilan mahasiswa calon apoteker dalam hal komunikasi dan kerjasama dengan rekan sejawat apoteker, tenaga kesehatan lain maupun pasien secara professional.
4. Melalui PKPA Rumah Sakit secara daring, mahasiswa calon apoteker dapat memperoleh pembekalan berupa pengetahuan praktis dan keterampilan tentang pengelolaan dan pelaksanaan pelayanan kefarmasian di rumah sakit.

5.2 Saran

Saran yang dapat diberikan selama pelaksanaan Praktek Kerja Profesi Apoteker (PKPA) di Rumah Sakit secara daring adalah sebagai berikut:

1. Mahasiswa PKPA perlu membekali diri dengan materi dasar pelayanan kefarmasian dan pengetahuan serta pemahaman mengenai perkembangan yang terjadi di bidang kefarmasian sehingga dapat berperan aktif selama PKPA berlangsung agar dapat memperoleh informasi dan pengalaman yang berguna sebagai bekal memasuki dunia kerja di masa yang akan datang.
2. Untuk memaksimalkan PKPA secara daring ini, dapat dipaparkan foto atau video yang dapat menggambarkan mengenai pekerjaan dan pelayanan kefarmasian yang terjadi di rumah sakit secara langsung sehingga mahasiswa calon apoteker dapat lebih mengetahui dan memahami gambaran fungsi dan tugas apoteker secara umum di rumah sakit.
