Subject: submission an article

I introduced myself. My name is Gregoria Ariyanti. I will submit an article with the title

"A NOTE OF THE LINEAR BALANCE SYSTEMS FOR MATRIX X THAT SATISFIES $A \otimes X \otimes A$
 $A \nabla A$ "

I attach the following via email.

best regards,
gregoria ariyanti

 JP J. Alg. Number Theory & Appl. <jpanta@pphmj.com> Kepada: gregoria ariyanti Rab, 14 Jun 2017 jam 13:51 ☆

Dear Professor Ariyanti,

It is to acknowledge the receipt of your paper in our office. The paper has been handed over to a referee who is requested to submit his report within a month. I shall contact you again as soon as his report reaches our hand.

Thanking you for your interest in our journal,

With kind regards,

Arun Azad

 Kepada: gregoria ariyanti

Dear Professor Ariyanti,

Your paper is still with the referee.
We have reminded the referee for his early report on your paper
and he has assured to give his report very soon.

With kind regards,

Arun Azad

Dear Professor Ariyanti,

I am happy to inform you that your paper entitled "A note of the linear balance systems for matrix X that satisfies $A \otimes X \otimes A \nabla A$ " jointly written with Ari Suparwanto and Budi Surodjo has been accepted for publication in the JP Journal of Algebra, Number Theory & Applications.

Thank you for submitting your work to JP Journal of Algebra, Number Theory & Applications.

Yours sincerely

(ARUN AZAD)

Referee's Report

Paper No.: PPH-1706048-ANT

Title: "A note of the linear balance systems for matrix X that satisfies $A \otimes X \otimes A \nabla A$ ".

Authors: Gregoria Ariyanti, Ari Suparwanto and Budi Surodjo

Recommendation: Accept (X) Revision () Reject ()

The authors obtain a necessary and sufficient condition of a solution of the linear balance systems with a matrix X that satisfies $A \otimes X \otimes A \nabla A$. They establish the following:

If X is any matrix satisfying $A \otimes X \otimes A \nabla A$, then $A \otimes x \nabla b$ has a solution if and only if $A \otimes X \otimes b \nabla b$, in which case the most general solution is $x = X \otimes b \oplus (E \ominus X \otimes A) \otimes h$, where h is arbitrary and $A \in M_{m \times n}(\mathbb{S})$.

The paper is interesting and deserves its publication in the JP Journal of Algebra, Number Theory & Applications.

The screenshot shows a Yahoo! Mail interface. The search bar contains "Number Theory & Applic...". The email list shows a message from "JP J. Alg. Number Theory & Appl." with the subject "Proofs of Paper no. PPH-1706048-ANT in the JPANTA." The email content is as follows:

Ref.: Your paper no. PPH-1706048-ANT in the JPANTA.

Dear Professor ,Ariyanti

Attached please find the letter of acceptance, report, galley proofs and the invoice in reference to above mentioned paper.

Please return the corrected proofs through e-mail.
If any correction in the galley proofs is required, kindly send the list of corrections indicating page and line numbers of this attached file.

Please confirm on receipt.

With kind regards,

Arun Azad
