My New Best Friend

When I began my first day as a college student of English Department at Widya Mandala University, I had no idea who would be my friends in here.

As time went by, I found five new best friend in here. I'm feeling lucky to have them.

Right now, I'm going to tell you one of my best friends whose name is Fia.

Her fullname is Alief Hanafiah. She is 19 years old, same as I. She is quite tall, approximately 155 cm. She has long wavy black hair. She has an oval face with big eyes, small ears, pointed nose, and thin lips. Her skin complexion is dark.

When she goes to campus, she usually wears casual clothes. Sometimes she use shirt or T-shirt to school. She seldom uses dress or skirt. Mostly, she wears flat shoes.

I only ever see her wearing sneakers once. She's also rarely using jewelry. However, in some occasion, she wears watch. She travels by motorcycle from her house to campus so she got sunburns on her hand and feet.

What I like about her is she cares with people. She likes to pay attention at small details. For example, one of us wears a new shoes to campus and Fia is the one

who notice it first. Even though it sound unimportant, but it does matter to people. People need to be recognize. She is also a type of generous person.

She isn't a stingy person. She always helps me when she is able to do so.

She's patient and kind-hearted. She gives us solution to our problems when we need it. She likes to joke around too. It seems that every word that she says

is funny and it makes us laugh. She's a dilligent person too. Sometimes she helps

her siblings when they have English Test on the next day. However, she can get

panic when she have tough problems. If that's happen, we have to calm her down

first then we give her suggestions to her problems. It's normal to be panic in that

kind of situation but it also important to remain calm. She can be an extravagant

when she feels stress, especially on food. I do the same thing also when I

feel stress. So, I don't think that problem can be solved.

I'm happy to have Fia as one of my new friends in campus. She's not the perfect one, but I'm sure that she's the best one. So far, we have

never had a fight. I hope that we can still be friend even though we've

graduated from here. Some people say that friendship in collage degree doesn't

last long but I hope we do have it.

The Best Gift for My Brother

Next month on November 2012, my brother will celebrate his birthday.

I have prepared a special thing for him. I know that he will never expect about this gift. He likes MotoGP, so I have bought a bike. This bike is very expensive and special edition.

This bike is Honda CBR 250 cc. I believe that everyone knows about this bike. Honda CBR 250 cc is very great. It has a chassis which same like a bike in MotoGP, of course in Honda Team. The colour are orange, black and white. The main colour is orange and it has a word, "REPSOL". Repsol is the main sponsor in Honda Racing Team. The word is on the left and right side. From the machine, it has 250 cc. I think it is very common new in Indonesia. But, it is a little bit fast than Kawasaki which has the same machine. Maybe because of the size, the size of the bike.

The chassis of Honda CBR 250 cc is almost perfect for me.

Because of the additional mirror. Of course, if the bike is for racing, there's no mirror. Overall, it is very good. The chassis is from special thing, but I forgot. It is very tough, but it's very light. In the front, the chassis has a special plastic that help the aerodynamic of the bike.

Then, this bike has 6 gears. It is very great and very fast. If you in the 6th gears, it will run around 160 km/hour. Actually, I think it's very hard to reach the 6th gears in here. You know that Surabaya is very crowded and very hard to find a big way, except in "Janda Lama".

This bike looks like a bike in MotoGP, but it still has 2 seats. Of course, the second seat is very scary for me. The seat is higher than the main seat. Better if you ride this bike alone.

Fortunately, in Indonesia, Honda just provides 50 bikes. So, this is very special bike because not all people can get this bike, although they are rich. Not only because of the unit, when I ~~buy~~ bought this bike, I got the helmet, too. It has a signature from Casey Stoner. He is a rider from Honda Racing Team in MotoGP. But, I just give the bike, not the helmet.

From the tyre, the Honda give a special edition from Bridgestone. It's for wet & dry road. The tyre is very big. When you're riding this bike then you want to stand and let off your hands from the steer, it's okay. It will go straight normally, because of the size of the tyre is ~~big~~ big. The other example, if you want to stop the bike directly, it's okay. The stability of this bike is

very good. It's like there are no weaknesses from this bike.

I believe he will be very happy when I show it to him. Although it is for him, I still can borrow it. That's the point.

1) Describing an Object : A Guitar For My Music Teacher.

I have a music teacher who has taught me for a year. His name is "Sony". He is a good teacher for me and a good friend. He loves his job as a musician and also as a music teacher. I am very respect with and to him because He is very patient when He taught me. The next month is His birthday and I would like to give him an acoustic guitar. He has ever told me that he wanted to buy an acoustic guitar but He canceled it because he had already had an electric guitar.

This guitar which I want to give to him is acoustic guitar with contain a good wood and beautiful sound. The mark is "Lake wood", it cost very expensive but has a good specification. This Guitar is made in USA and I think He will be very happy to have it one. I haven't know the cost of this guitar yet, but I have already saved my money to buy and give that guitar to him.

The Specification of this guitar is very unique. This guitar made of selected wood. The body of "Lakewood" guitar is made from "mahogany" hard wood (mahogany is a type of wood) and it will produce a great sound. The neck part of this guitar also made from mahogany hard wood and it will make you feel comfortable when you play this guitar.

The process of making this guitar is manually produce. This guitar is hand made and it is pure, original made by musician in USA with wood architect. If I want to buy this guitar, I need to order it this month but I hope "Lakewood" industry have some stocks guitar.

Another thinks why I choose this guitar is this guitar has a good "pick up", this pick up will sound very beautiful and the pick up of this guitar is very sensitive, You can play "tapping" technique with perfect sound and I bet all of my money I have that my music teacher will be very happy if I give that guitar for him.

The series of acoustic guitars are: too many but I have decided what the series is. I choose "Lakewood" SG320 with original color of wood (brown).

One thing that I know about my music teacher is He is a simple man and he very likes original things or pure things. That is why I choose this guitar. I hope He will be happy when I give that guitar to him.

NILAI

My Grandpa , My Hero

My grandfather's name is Soehendra Wangsawidjaya and his Mandarin name is Wang Shun Hing. He was born in China in 18th of May, 1936. He is 76 years old now and still very healthy. He has an oval face with round and big eyes. He has a pointy nose, small lips, and he doesn't have any moustache because he always shaves it every two days in a week. He has wrinkles all over his face because he is already old but he still looks younger than his age and still very handsome. His hair is parted to the right side and still thick. He doesn't like his hair to be too long and too thick so he cuts it every three weeks in a ~~the~~ salon near my house. Sometimes, he dyes his hair in black colour so he could look younger. My grandma usually does it for him. I like the way he talks because he has a clear yet loud voice. He has a good voice too and he likes to sing when he's driving or go to a karaoke place with his friend. He likes old Chinese and Western song. He has been married to my grandmother for more than 40 years and they will be celebrating their golden marriage in the next few years. Although he is a little bit hot-tempered, he has a good and wise personality. He doesn't like to punish his child and grandchildren by physical punishment and he gives advice so we don't repeat the same mistakes in the future. His hobby is

traveling and watching TV. He likes to travel with my grandma and his friends. Movies that he likes are old and new Chinese movies. He doesn't like to watch movie in the theater because it's too loud. His favorite food is pig's ear and meat, vegetables, soto, and durian. He always buys durian every time he goes to the supermarket or groceries store. His favorite soto restaurant is Cak Har and it is near my house. He often goes there to eat or to buy some portions of soto to take away. Now, I want to tell why my grandpa becomes my hero. It is because when I was small, my father and mother got divorced and my mother left me in my dad's care. My dad didn't take care of me because of the depression ^{that} caused by the divorce. So, my grand father decided to take me in and to take care of me. In Every weekends, he brought me to the mall and some good restaurants with my grandma and my brother. He even paid my school's fee in elementary school until senior high school. Even until now, he still pay my university tuition fee. He often gets angry with me but he still forgives me and treat me like his own son. He always carried me around when I was small. I liked it because he is so tall ~~and~~ even taller than me now. He has an ideal body and he still can eat everything as long as it is not too oily or too much. He loves to pull a prank too at his grand children by tickling them or punching them by using his fingers. That's all the reasons why my grand father is like a hero to me. I hope he can live long and stay healthy so he ~~he~~ can make more memories with me and my family.

Actually, I'm very glad have a friend like her. But, I don't

My Close Friend

I would like to describe my close friend. I first met her in IC class. At that time, we sat on the same bench and I tried to introduce myself. Next, we enjoyed our conversations and we have been friends until now. Her name is Charisma Safitri Iswantari. She lives with her aunt in Setro Baru, Surabaya. Her parents work in Medan. Her mother works as a businesswoman and her father works as a pharmacist. She ever told me that actually she misses her parents very much but she did not want to move to live with her parents in Medan because she loves Surabaya. Now, she is nineteen years old. Charisma was born in Surabaya, March 27, 1993 as a first daughter in her family. Her brother studies in Senior High School. I think, Charisma has a close relation with her brother because they sometimes spend their times together likes shopping windows or just cycling together.

My friends and I usually call her "Risma". She is quite good looking with thin body. She is tall enough around 156 cm and 46 kg weight. She has long

straight black hair with a fair skin. Like others people, she also has eyes, a nose, lips and ears. I will make details about that, she has big round black eyes and a pointed nose. If you see on her nose, there is a small mole in the right side. She has medium ears with beautiful earrings. She also has small thin pink lips with oval face. She likes using casual styles but sometimes she also likes using a bit glamour style when she goes to campus. For accessories, she loves using a watch and a bracelet with colourful colour and mode / kind. She doesn't like using high heels but she loves using flat shoes combine with cardigan or blouse.

Charisma is quite silent if you haven't known her yet. I think if you have been her close friends, you can know that Charisma actually a talkative person. Sometimes I think she can be a talkative person because she has thin lips, on the other side I am not really sure about that. If she becomes a talkative person, she will talk about anything that she loves. Because of that, sometimes I feel annoy with her. She also can be a childish person when she wants more care from everyone.

Charisma likes doing a photo session with his boyfriend. Fortunately, her boyfriend is a photographer so she can do their hobbies together, Charisma as a model. One thing that more specific from her that she loves zebra very much. Because of that, if she is going shopping with me, she will buy anything which has a pattern like zebra. Until now, she has had a bag, a blouse, shoes and casing handphone which have pattern like zebra. I think she becomes crazy because zebra. Do you

know? She also uses a book which has a cover likes pattern zebra.

From all, I hope we can be close friend forever and I like her not only her appearance but also her attitude. ^^

As long as I have been living with her, we have never quarrel each other. She is very friendly and polite girl. Describing Person

The Greatest Woman

My mom is a strong woman who gave me birth and caring me all the time.

The first person who I met when I was born and cried to. My mom's name is Atik. but

if I could change it, I would called her my angel. She is a good housewife in home. I say

she is multitalemned.

She is in her mid 50's, a half of a century. However she doesn't like an old woman.

She is still lovely and only has little wrinkle in her face. She has an oval face with freckles

and some moles of its part. The freckles are from UV radiation not from her descendent. She has

dark eyes, not ^{so} big or chinky, it's normal size. She has a rather pointed nose with a mole on

the ear lobe, I forgot in which side. Her lips are rather full. She often use lipstick to her lips when

she wants to go out because her lips aren't pink or red naturally. It's from my grandma descend and

I have it too. She has dark curly hair. She always makes her hair short because she can't stand

having long hair. Besides, she believes that long hair is usually easy to fall. She sometimes

has fringe too, usually right side fringe. Although her hair is curly, it looks lovely to her.

She has an average size of body. She has 65 kg of weight. I think it's ideal one because women in her age usually have more weight. She has olive complexion, a Japanese particularity.

She is a very neat person. She always cleans and makes the whole ^{rooms in} house neat. She always rebukes me if I don't clean my room. I can't say anything else and start to clean it because I know if she rebukes me about my room, it means that it is really really dirty, disorder, and horrible. Sometimes she cleans my room if she thinks that I don't have much time. I'm so thankful. She is a great chef. She always cooks great food for us (me and my sisters). She is good at cooking Indonesian food but not really ^{good} at Chinese & Western food. also in making cakes and sweet food.

My mom is a great woman I have ever known. Although sometimes I have conflict with her and hate her, I can't deny that she is still my mom, a woman that can sacrifice her life to give me birth and always cares to me all the time. I will make her proud someday.
