

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1. Conclusion**

The data collected showed that picture series technique successfully improved the students' speaking ability. Picture series technique is an effective media to teach the students especially when teaching speaking as well as to make the students actively participated in the learning activity. Picture series make the atmosphere in the class more alive and motivated the students to respond the answer and questions that related to the picture and it can make the students become more confident to practice their English. Picture series technique is suitable to teach the students of Junior and Senior high school because it makes the students enthusiastic in the classroom. Therefore, it can be concluded that picture series technique is an effective media to teach the students and to improve their speaking ability.

#### **5.2. Suggestion**

From the result of the study, the writer would like to offer several suggestions that might be useful for the teachers and for the future researchers.

##### **5.2.1. For the Teachers**

From the data collected that the writer has summarized showed that picture series successfully improved the students' speaking ability. Therefore, it is recommended to use picture series as a learning media to teach the students. The teacher should prepare the pictures based on the students' level so that it will help them understand about the pictures. Moreover, teacher should

prepare the pictures that are related to their topic and prepare the picture that familiar to the students. After explaining the pictures to the students, the teacher should give a chance to the students to ask and explain it clearly to the students.

#### **5.2.2. For the Future Researchers**

The writer would like to give suggestion to the future researchers that might use library research as the design to take the college students as the subject of the study because in this study, the writer only used junior and senior high school students as the subject.

The writer also suggest the researchers to take ten or more data collected to analyze and summarize it. In order to know more the differences result, method, instrument etc that are related to the role of picture series technique in improving students' speaking ability.
