| 41 | 7,6 | 57,76 | 9,4 | 88,36 | 5,8 | 33,64 |
| 42 | 7,2 | 51,84 | 8,4 | 70,56 | 4,8 | 23,04 |
| 43 | 6,8 | 46,24 | 6,2 | 38,44 | 9,6 | 92,16 |
| 44 | 8,5 | 72,25 | 6 | 36 | 9,6 | 92,16 |
|  | $\sum x=331,32$ | 2586,53 | $\sum x=330,44$ | 2644,52 | $\sum x=325,16$ | 2556,12 |

## The test hypothesis of class VII A and class VII B

1. Ho: $\mu \mathrm{A}=\mu \mathrm{B}$ : There is no significant difference between two classes in English ability.

Ha: $\mu \mathrm{A}>\mu \mathrm{B}$ : There is a significant difference between two classes in English ability.
2. T -test where $\mathrm{df}: \mathrm{nA}+\mathrm{nB}-2=86$
t table $=1,99$
3.Calculation

Class VII A
$\bar{X}=\frac{\sum X}{n}=7,53 \quad ; \mathrm{n}=44$
7,51
$S=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=1,464$
$S=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=1,421$
$\begin{aligned} & t_{0}=\frac{\bar{X} A-\bar{X} B}{=1,99} \sqrt{\frac{(n A-1) S D^{2} A+(n B-1) S D^{2} B}{n A+n B-2}\left(\frac{1}{n A}+\frac{1}{n B}\right)}\end{aligned}=0,0650$
T table

## 4. Conclusion

Because t -observation is $0,0650<\mathrm{t}$ table $(1,99)$ so Ho is accepted. It means that
there is no significant difference in English ability between class VII A and class VIIB

## The test hypothesis of class VII A and class VII C

1. Ho: $\mu \mathrm{A}=\mu \mathrm{B}$ : There is no significant difference between two classes in На: $\mu \mathrm{A}>\mu \mathrm{B}$ : There is a significant difference in the present continuous tense achievement of the students after receiving treatments and before receiving treatments.
2. T-test where $\mathrm{df}: \mathrm{nA}+\mathrm{nB}-2=86$
t table $=1,99$
3.Calculation

Class VII A
$\bar{X}=\frac{\sum X}{n}=7,53 \quad ; \mathrm{n}=44$
7,39

$$
S=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=1,464
$$

## 4. Conclusion

Because t -observation is $0,385<\mathrm{t}$ table $(1,99)$ so Ho is accepted. It means that
there is no significant difference in English ability between class VII A and class VIIB

## The test hypothesis of class VII B and class VII C

1. Ho: $\mu \mathrm{A}=\mu \mathrm{B}$ : There is no significant difference between two classes in На: $\mu \mathrm{A}>\mu \mathrm{B}$ : There is a significant difference in the present continuous tense achievement of the students after receiving treatments and before receiving treatments.
2. T-test where df: $\mathrm{nA}+\mathrm{nB}-2=86$
t table $=1,99$
3.Calculation

Class VII B
$\bar{X}=\frac{\sum X}{n}=7,51 \quad ; \mathrm{n}=44$
7,39

$$
\begin{aligned}
S & =\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=1,421 \quad S=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}} \\
& t_{0}=\frac{\bar{X} A-\bar{X} B}{\sqrt{\frac{(n A-1) S D^{2} A+(n B-1) S D^{2} B}{n A+n B-2}\left(\frac{1}{n A}+\frac{1}{n B}\right)}}=0,333 \quad T \text { table }
\end{aligned}
$$

## 4. Conclusion

Because t -observation is $0,333<\mathrm{t}$ table $(1,99)$ so Ho is accepted. It means that
there is no significant difference in English ability between class VII A and class VIIB

APPENDIX 2
TRY OUT RELIABILITY

| no | X | ${ }^{x} X^{2}$ |

| Total | 1251 | 37139 |
| n | 44 | 44 |
| mean | 28,43 |  |
| Var | 36,53 |  |

$\mathrm{X}=$ number correct answer

## The calculation of try out reliability.

$$
V=\frac{n \cdot \sum x^{2}-\left(\sum x\right)^{2}}{n(n-1)}=36,53
$$

Where,

| V | $:$ Variance |
| :---: | :--- |
| n | $:$ number of students |
| $\Sigma \mathrm{x}$ | $:$ the total sum of the correct answers |

KR-21 Formula ( Gronlund, 1982 : 133)
$: r=\frac{k}{k-1}\left(1-\frac{M(K-M)}{K V}\right)=0,97$

Where,
R : reliability estimate
M : the mean of the test score
K : the number of items in the test
V : variance

## APPENDIX 3 ITEM DIFFICULTY

## Multiple choices

| No | Right answer | Wrong <br> answer | IF | Interpretation |
| :--- | :---: | :---: | :---: | :---: |
| 1a | 28 | 11 | 0.63 | Moderate |
| 1b | 34 | 5 | 0.77 | Easy |
| 2a | 34 | 5 | 0.77 | Easy |
| 2b | 34 | 5 | 0.77 | Easy |
| 3a | 15 | 24 | 0.34 | Moderate |
| 3b | 17 | 22 | 0.38 | Moderate |
| 4a | 37 | 2 | 0.84 | Easy |
| 4b | 23 | 16 | 0.52 | Moderate |
| 5a | 10 | 29 | 0.23 | Difficult |
| 5b | 12 | 27 | 0.27 | Difficult |
| 6a | 29 | 10 | 0.66 | Moderate |
| 6b | 28 | 11 | 0.64 | Moderate |
| 7a | 30 | 9 | 0.68 | Moderate |
| 7 b | 35 | 4 | 0.79 | Easy |

| 6a | 29 | 10 | 0.65 | Moderate |
| 6b | 25 | 14 | 0.56 | Moderate |
| 7a | 13 | 26 | $0 ., 29$ | Difficult |
| 7b | 11 | 28 | 0.25 | Difficult |
| 8a | 34 | 5 | 0.77 | Easy |
| 8b | 32 | 7 | 0.72 | Easy |
| 9a | 34 | 5 | 0.77 | Easy |
| 9b | 35 | 4 | 0.79 | Easy |
| 10 | 10 | 29 | 0.25 | Difficult |

## The formula of item difficulty

$$
I F=\frac{\text { ncorrect }}{\text { ntotal }}
$$

Where: IF : Item Facility
N correct: number of pupils answering correctly
N total : number of pupils taking the test

The Criteria of the Level of Difficulty

| IF Index | Interpretation |
| :---: | :---: |
| $0.00-0.14$ | Very difficult item |
| $0.15-0.29$ | Difficult item |
| $0.30-0.70$ | Moderate item |
| $0.71-0.85$ | Easy item |
| $0.86-1.00$ | Very easy item |

## APPENDIX 4 DISCRIMINATION INDEX

## Multiple choices

| No | Ru | Rl | D | Interpretation |
| :---: | :---: | :---: | :---: | :---: |
| 1a | 21 | 7 | 0.31 | Satisfactory |

| 9b | 24 | 10 | 0,31 | Satisfactory |
| 10a | 19 | 8 | 0,25 | Satisfactory |
| 10b | 22 | 5 | 0,38 | Satisfactory |

## Essay

| No | Upper | Lower | D | Interpretation |
| :---: | :---: | :---: | :---: | :---: |
| 1a | 17 | 3 | 0,34 | Satisfactory |
| 1b | 13 | 3 | 0,23 | Satisfactory |
| 2a | 17 | 6 | 0,25 | Satisfactory |
| 2b | 15 | 5 | 0,23 | Satisfactory |
| 3a | 9 | 0 | 0,20 | Satisfactory |
| 3b | 21 | 2 | 0,43 | Good |
| 4a | 23 | 5 | 0,40 | Good |
| 4b | 14 | 4 | 0,23 | Satisfactory |
| 5a | 22 | 11 | 0,25 | Satisfactory |
| 5b | 24 | 11 | 0,29 | Satisfactory |
| 6a | 19 | 10 | 0,20 | Satisfactory |
| 6b | 23 | 2 | 0,47 | Good |
| 7 a | 11 | 2 | 0,20 | Satisfactory |
| 7 b | 11 | 0 | 0,25 | Satisfactory |
| 8a | 23 | 11 | 0,27 | Satisfactory |
| 8b | 24 | 8 | 0,36 | Satisfactory |
| 9a | 24 | 13 | 0,31 | Satisfactory |
| 9b | 22 | 0 | 0,20 | Satisfactory |
| 10 | 10 |  | 0,23 | Satisfactory |

Where,
D : item discrimination power
Ru : number of upper group pupils who give correct answer
RL : number of lower group pupils who give correct answer
n : number of students

## The formula of item discrimination index

$D=\quad \underline{R u-R L}$
n
Where: D : item discrimination power
Ru : number of upper group pupils who give correct answer
RL : number of lower group pupils who give correct answer
n : number of students
The Criteria of the Item Discrimination

| Discrimination Power | Interpretation |
| :---: | :---: |
| $0.00-0.19$ | Poor |
| $0.20-0.39$ | Satisfactory |
| $0.40-0.69$ | Good |
| $0.70-1.00$ | Excellent |

## APPENDIX 5 The Pre-test Score

## Calculation for pre-test and post-test of experimental group

$$
\begin{array}{ll}
\overline{X A}=\frac{\sum X}{n}=68,84 & ; \mathrm{n}=44 \\
& \\
\overline{X B}=\frac{\sum X}{n}=77,48 & ; \mathrm{n}=44
\end{array}
$$

Where, XA : The statistical mean of pre-test
XB : The statistical mean of pos-test
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group
n : number of individual of each group

$$
S A=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=20,13
$$

Where: SA : the standard deviation of pre-test
n : number of individual of each group
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group

$$
S B=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=15,24
$$

Where: SB : the standard deviation of post-test

$$
\begin{aligned}
& \text { n : number of individual of each group } \\
& \Sigma \mathrm{x} \quad \text { : the total sum of the scores in each group } \\
& t_{0}=\frac{\bar{X} A-\bar{X} B}{\sqrt{\frac{(n A-1) S D^{2} A+(n B-1) S D^{2} B}{n A+n B-2}\left(\frac{1}{n A}+\frac{1}{n B}\right)}}=2,23 \\
& \text { Where: to : the standard score } \\
& \text { XA : the mean of sample A (pre-test) } \\
& \text { XB : the mean of sample B (post-test) } \\
& \text { SA : the standard deviation of sample A } \\
& \text { SB : the standard deviation of sample B } \\
& \mathrm{nA} \text { : the number of sample A } \\
& \mathrm{nB} \text { : the number of sample } \mathrm{B}
\end{aligned}
$$

## 4. Conclusion

Because $t$-observation is $2,23>t$ table $(1,99)$ so Ho is rejected. It means that
there is a significant difference after and before receiving treatments.

## Calculation for pre-test and post-test of control group

$$
\begin{array}{ll}
\overline{X A}=\frac{\sum X}{n}=67,09 & ; \mathrm{n}=44 \\
\overline{X B}=\frac{\sum X}{n}=75,15 & ; \mathrm{n}=44
\end{array}
$$

Where, XA : The statistical mean of pre-test
XB : The statistical mean of pos-test $\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group
n : number of individual of each group
$S A=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=16,81$

Where: SA : the standard deviation of pre-test
n : number of individual of each group
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group
$S B=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=14,07$

Where: SB : the standard deviation of post-test
n : number of individual of each group
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each

$$
t_{0}=\frac{\bar{X} A-\bar{X} B}{\sqrt{\frac{(n A-1) S D^{2} A+(n B-1) S D^{2} B}{n A+n B-2}\left(\frac{1}{n A}+\frac{1}{n B}\right)}}=2,44
$$

Where: to : the standard score
XA : the mean of sample A (pre-est)
XB : the mean of sample B (post-test)
SA : the standard deviation of sample A
SB : the standard deviation of sample B
nA : the number of sample A
nB : the number of sample B

## 4. Conclusion

Because $t$-observation is $2,44>t$ table $(1,99)$ so Ho is rejected. It means that
there is a significant difference after and before receiving treatments

## Calculation for post-test of experimental and control group

$\bar{X} A=\frac{\sum X}{n}=77,48$ ; $\mathrm{n}=44$
$\overline{X B}=\frac{\sum X}{n}=75,15$
; $\mathrm{n}=44$

Where, XA : The statistical mean of pre-test
XB : The statistical mean of pos-test
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group
n : number of individual of each group
$S A=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=14,18$

Where: SA : the standard deviation of experimental group
n : number of individual of each group
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group

$$
S B=\sqrt{\frac{n \sum X^{2}-\left(\sum X\right)^{2}}{n(n-1)}}=15,32
$$

Where: SB : the standard deviation of controll group
n : number of individual of each group
$\Sigma \mathrm{x} \quad$ : the total sum of the scores in each group

$$
t_{0}=\frac{\bar{X} A-\bar{X} B}{\sqrt{\frac{(n A-1) S D^{2} A+(n B-1) S D^{2} B}{n A+n B-2}\left(\frac{1}{n A}+\frac{1}{n B}\right)}}=0,382
$$

Where: to : the standard score
XA : the mean of sample A (teaching using grammar games)
XB : the mean of sample B (teaching using drills)
SA : the standard deviation of sample A
SB : the standard deviation of sample B
nA : the number of sample A
nB : the number of sample B

## 4. Conclusion

Because t -observation is $0,374<\mathrm{t}$ table $(1,99)$ so Ho is accepted. It means that
there is no significant difference on the present continuous tense between the students
who are taught using games than those who are taught using drills.

# LESSON PLAN FOR EXPERIMENTAL GROUP (First meeting) 

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: 2$ |
| Time allocated $: 1 \times 40$ minutes |  |

## A. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the positive sentence of the present continuous tense.

2. Learning material

- Game sheet

## 3. Teaching and learning activities

1. Method : Communicative method.
2. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the positive form of present continuous tense.
- Students are asked to make two sentences by their own.
- Students area asked to read the sentences. .
- Students are asked to pay attention to the teacher's explanation about the rules of the game.
- Students are divided into groups of ten.
- Students must describe the action verbs by using the positive form of the present continuous tense correctly.
- Students do the games (see the rules of games)

## Teacher's note

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated | $: \mathbf{1 x 4 0}$ minutes |

## 1. Learning Outcomes

- Students are able make the present continuous tense correctly.

## 2. Pre-activities

- The teacher greets the students
- The teacher asks some triggering questions:

1. Do you know what is the use of the present continuous tense ?
2. Do you know the pattern of the present continuous tense?
3. Can you make sentences using the present continuous tense ?

- The teacher asks the students to pay attention to teacher's explanation.

## 3. Whilst activities

- The teacher explains the positive pattern of the present continuous tense.
- The teacher asks the students to make two sentences by their own.
- The teacher asks the students to read their sentences.
- The teacher explains the rules of the game.
- The teacher divides the student into groups of ten.
- The teacher distributes the game sheet.
- The teacher lets the students play with their friends in group for 15 minutes

## 4. Post activities

- The teacher gives some exercises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is any mistake

# LESSON PLAN FOR EXPERIMENTAL GROUP (Second meeting) 

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated | $: \mathbf{1 x 4 0}$ minutes |

## A. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the negative sentence of the present continuous tense.

## B. Learning material

- Game sheet
C. Teaching and learning activities

1. Method : Communicative method.
2. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the negative form of present continuous tense.
- Students are asked to make two negative sentences by their own.
- Students area asked to read the sentences. .
- Students are asked to pay attention to the teacher's explanation about the rules of the game.
- Students are divided into groups of ten.
- Students must describe the action verbs by using the negative form of the present continuous tense correctly.
- Students do the games (see the rules of games)

## Teacher's note

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated | $: \mathbf{1 x 4 0}$ minutes |

## 1. Learning Outcomes

- Students are able make the present continuous tense correctly.

## 2. Pre-activities

o The teacher greets the students
o The teacher asks some triggering questions:

1. Do you still remember our last lesson?
2. Can you make a negative form of the present continuous tense

- The teacher asks the students to pay attention to teacher's explanation.

## 3. Whilst activities

- The teacher explains the negative pattern of the present continuous tense.
- The teacher asks the students to make two sentences by their own.
- The teacher asks the students to read their sentences.
- The teacher explains the rules of the game.
- The teacher divides the student into group of ten.
- The teacher distributes the game sheet.
- The teacher lets the students do the games.

## 4. Post activities

- The teacher gives some exercises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is any mistake.

# LESSON PLAN FOR EXPERIMENTAL GROUP (Third meeting) 

Subject : English<br>Class : Junior High School first grade<br>Semester : 2<br>Time allocated : 1x40 minutes

## A. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the interrogative sentence of the present continuous tense.

## B. Learning material

## C. Teaching and learning activities

1. Method : Communicative method.
2. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the interrogative form of present continuous tense.
- Students are asked to make two interrogative sentences by their own.
- Students area asked to read the sentences. .
- Students are asked to pay attention to the teacher's explanation about the rules of the game.
- Students are divided into groups of ten.
- Students are asked to ask some questions using the interrogative form of the present continuous tense.
- Students do the games (see the rules of games)

## Teacher's note

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated | $: \mathbf{1 x} \mathbf{4 0}$ minutes |

## 1. Learning Outcomes

- Students are able make the present continuous tense correctly.

## 2. Pre-activities

o The teacher greets the students
o The teacher asks some triggering questions:

1. Do you still remember our last lesson?
2. Can you make a interrogative form of the present continuous tense

- The teacher asks the students to pay attention to teacher's explanation.

## 3. Whilst activities

- The teacher explains the interrogative pattern of the present continuous tense.
- The teacher asks the students to make two sentences by their own.
- The teacher asks the students to read their sentences.
- The teacher explains the rules of the game.
- The teacher divides the student into group of ten.
- The teacher asks one student from one group to come forward.
-The teacher gives the student a card with simple instructions in it.
- The teacher asks the student to mime the instructions.
- The teacher asks the students from his or her group to guess the action.

## 4. Post activites

- The teacher gives some exercises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is any mistake

## Rules of "Describe it" part I

1. Students do the games in their own group.
2. One of the students in each group should take one card, and has to describe it to the other students in his group.
3. The other students have to guess which picture that is being described.
4. The students who describe the picture must use the positive form of the present continuous tense.
5. The student who wants to guess has to raise their hand first.

## Rules of "Describe it" part II

1. Students do the games in their own group.
2. One of the students in each group should take one card, and has to describe it to the other students in his group.
3. The other students have to guess which picture that is being described.
4. The students who describe the picture must use the negative form of the present continuous tense.

5 The student who wants to guess has to raise their hand first

## Rules of "Guess the mime"

1. Each group chooses two representatives to mime the action.
2. The representative must mime the action on the cards.
3. The representatives are only allowed to answer using "yes" or "no" while they are doing the mime..
4. The students who are asking must use .the interrogative form of the present continuous tense correctly.
5. The wrong interrogative form will not be counted.
6. Each group will be given five times to ask questions. If the group can not guess the action, the chance will be given to the other groups.
7. One correct answer will be scored ten.

## The Game Sheet

## LESSON PLAN FOR CONTROL GROUP (First meeting)

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: 2$ |
| Time allocated $: 1 \times 40$ minutes |  |

## B. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the positive sentence of the present continuous tense.

## 4. Learning material

5. Teaching and learning activities
6. Method : Single-slot substitution drill.
7. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the present continuous tense.
- Students are asked to repeat after the teacher read sentences on the board.
- Students are asked to change the subject of the sentences based on the teacher's instruction.
- Students are asked to change the verb of the sentences based on
the teacher's instruction.

| Teacher's note |  |
| :--- | :--- |
| Subject | $:$ English |
| Class | $:$ Junior High School first grade |
| Semester | $: 2$ |
| Time allocated | $: 1 \times 40$ minutes |

## 1. Learning Outcomes

- Students are able make the present continuous tense correctly.

## 2. Pre-activities

- The teacher greets the students
- The teacher asks some triggering questions:

1. Do you know what the use of the present continuous tense is?
2. Do you know the pattern of the present continuous tense?
3. Can you make sentences using the present continuous tense?

- The teacher asks the students to pay attention to the teacher's explanation.

## 3. Whilst activities

- The teacher explains the uses of the present continuous tense.
- The teacher explains the positive sentence of the present continuous tense.
- The teachers write as sentence on the board:

For example: I am reading a book.

- The teacher reads the sentence two times and lets the students repeat after her.
- The teacher says some subjects like she, they, we and students must change the subject on the sentence given.
- The teacher says some verbs like drive, work, and the students must change the verb on the sentence given.

## 4. Post activities

- The teacher gives some exorcises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is any mistake.

# LESSON PLAN FOR CONTROL GROUP (Second meeting) 

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: 2$ |
| Time allocated $: 1 \times 40$ minutes |  |

## B. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the negative sentence of the present continuous tense.

## D. Learning material

## E. Teaching and learning activities

1. Method : Transformation drills.
2. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the present continuous tense.
- Students are asked to repeat after the teacher read sentences on the board.
- Students are asked to change the subject of the sentences based on the teacher's instruction.
- Students are asked to change the verb of the sentences based on the teacher's instruction.

## Teacher's note

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated | $: \mathbf{1 x 4 0}$ minutes |

## 1. Learning Outcomes

- Students are able make the present continuous tense correctly.

## 2. Pre-activities

- The teacher greets the students
- The teacher asks some triggering questions:

1. Do you still remember our last lesson?
2. Can you make a negative form of the present continuous tense?

## 3. Whilst Activities

- The teacher explains the negative pattern of the present continuous tense.
- The teacher gives a transformation drill. The teacher says a positive sentence, and change it into a negative sentence based on the pattern explained before.
- The teacher asks the students to change the positive sentences given into negative sentences.
- The teacher shows two pictures. One of them has across on it.
- The teacher makes sentence based on the pictures, positive sentence for pictures without cross on it, and negative sentence for picture with cross on it.
- The teacher shows other pictures and asks the students to make positive sentences and negative sentences based on the pictures.

## 4. Post-activities

- The teacher gives some exercises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is a mistake.

## LESSON PLAN FOR CONTROL GROUP (Third meeting)

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: \mathbf{2}$ |
| Time allocated $:$ | $\mathbf{1 x 4 0}$ minutes |

## B. Competence

## Basic competence

- Students are able to use the present continuous tense correctly.

## Achievement indicators

- Students are able to form the interrogative sentence of the present continuous tense.

## D. Learning material

## E. Teaching and learning activities

1. Method : Transformation drills.
2. Class activities

- Students are asked to answer triggering question.
- Students are asked to listen to teacher explanation about the interrogative form of the present continuous tense.
- Students are asked to repeat after the teacher read sentences on the board.
- Students are asked to make an interrogative sentence from the positive sentences.
- Students are divided into two groups: left and right.
- One group is asked to make interrogative sentence, and then other group is asked to answer with yes or no.

## Teacher's note

| Subject | $:$ English |
| :--- | :--- |
| Class | $:$ Junior High School first grade |
| Semester | $: 2$ |
| Time allocated | $: \mathbf{1 x 4 0}$ minutes |

## 1. Learning Outcomes

o Students are able make the present continuous tense correctly.

## 2. Pre-activities

o The teacher greets the students
o The teacher asks some triggering questions:

1. Do you still remember our last lesson?
2. Can you make an interrogative form of the present continuous tense?

- The teacher asks the students to pay attention to teacher's explanation.

## 3. Whilst activities

- The teacher explains the interrogative pattern of the present continuous tense.
- The teacher gives transformation drill. The teacher says a positive sentence and asks the student to change it into an interrogative sentence.

For example: T : I am going to school
$\mathrm{S}:$ Am I going to school?

- The teacher does this activity with different subject and verb.
- The teacher divides the class into two groups: left and right.
- The teacher explains how to answer the question

For example : Am I reading?
No, I am not or Yes, I am.

- The teacher asks one group to make interrogative sentence based on subject and verb given, and the other group must answer with yes or no.

## 4. Post-activities

- The teacher gives some exercises about the present continuous tense.
- The teacher asks some students to read their answer.
- The teacher checks the answers and corrects them if there is a mistake.

## DRILLS FOR FIRST MEETING (POSITIVE FORM)

| Teacher | Students |
| :--- | :--- |
| I am reading a book. | I am reading a book |
| I am working | I am working. |
| She is sitting on the chair. | She is sitting on the chair. |
| Jane walking to school. | Jane walking to school. |
| He | He is reading a book. |
| She | She is reading a book. |
| They | They are reading a book. |
| Jack | Jack is reading a book. |
| Jack and Jane | Jack and Jane are riding a bike. |
| Susan | Susan is riding a bike. |
| I | I am riding a bike. |
| Monkey | Monkey is riding a bike. |
| You | You are riding a bike. |
| Boil the water | You are boiling the water. |
| She | She is boiling the water. |
| We | We are boiling the water. |
| They | They are boiling the water. |
| I | I am boiling the water. |
| Drive a car | I am driving a car. |
| He | He is driving a car. |
| You | You are driving a car. |
| Jack | Jack is driving a car. |
| Susan | Susan is driving a car. |
| Study mathematics | Susan is studying mathematics. |
| I | I am studying mathematics. |
| They | They are studying mathematics. |
| We | We are studying mathematic. |
| You | You are studying mathematics. |
|  |  |
