

## **BAB VII**

### **KESIMPULAN DAN SARAN**

#### **7.1 Kesimpulan**

Terdapat hubungan antara riwayat merokok terhadap frekuensi eksaserbasi PPOK pada pasien Rumah Sakit Gotong Royong Surabaya

#### **7.2 Saran**

1. Penelitian dapat dilaksanakan setelah pandemi *covid-19* berakhir agar diagnosis PPOK dapat menggunakan spirometri
2. Dapat menganalisis lebih dalam mengenai riwayat pekerjaan pasien, bahan yang diproduksi oleh perusahaan, dan lama bekerja
3. Dapat menganalisis lebih dalam apakah responden pernah memiliki riwayat infeksi saluran nafas atas
