The following message is being delivered on behalf of Jurnal **Sains Psikologi**.

Ms. Ermida Simanjuntak

We have reached a decision regarding your submission to Jurnal **Sains Psikologi**, "SELF-REGULATED LEARNING STRATEGY TRAINING : IMPROVING SELF-REGULATED LEARNING OF FIRST YEAR UNIVERSITY STUDENTS".

Our decision is: Revisions Required

Based on the editor's review, you need to add the following:

1. The abstract is not written about the results of the statistical data analysis
2. In the Test of knowledge, the validity is written but the validity is not explained, on the contrary, the SRSS does not write any explanation about the validity, only the reliability is written. Both should be written for all instruments.
3. Instead of just writing that "The data met the criteria for the normality test and the homogeneity of variance test" you need to write the number, the score of all of the assumption test.
4. Adjust your manuscript with the journal article template
