

[ICESTI 2014-IJAER] Editorial Decision on Paper

From:ICESTI 2014 Committee (icesti2014@icesti.org)

To:GreetingsAningAyucitra@

Date:Thursday, June 26, 2014 at 02:47 PM GMT+7

Dear Greetings Aning Ayucitra,

After a careful review of your submission, "**Domestic Microwave-Maceration Extraction (DMME) of Phenolic Compounds from Peanut (*Arachis hypogaea* L.) Shell using Full Factorial Design of Experiment**" is ACCEPTED WITH REVISION for presentation at International Conference on Engineering, Science, and Technology Innovation (ICESTI).

Following the conference, the article will be published in International Journal of Applied Engineering Research (IJAER).

Please see detailed comments from our reviewer(s) below and submit the revised full paper according to the journal template in 2 weeks ahead at the latest.

Submit your proof of registration altogether with camera ready paper and completed copyright form submission via this email. Please find following files in the attachments :

- Designated journal template
- Copyright form
- Plagiarism check report

Please be informed that only registered camera ready paper will be published in the designated journal.

Contact us if you have any concern.

Thank you and looking forward to have your participation in this event.

Best Regards,

ICESTI 2014 Committee
1st International Conference on Engineering, Science and Technology
Innovation
icesti2014@icesti.org

Reviewer C:

Is the topic appropriate for publication in this conference?:

Yes

Is the paper scientifically sound?:

Yes

Is the coverage of the topic sufficiently comprehensive and balanced?:

Yes

How would you describe the scientific depth of the paper?:

Appropriate for the generally knowledgeable individual working in the field

How would you rate the overall organization of the paper?:

Satisfactory

Are the abstract satisfactory?:

Yes

Are symbols, terms, and concepts adequately defined?:

Yes

How would you rate accordance of material to the conference requirements?:

Good

How would you rate the technical contents of the paper?:

Good

How would you rate the novelty of the paper?:

Sufficiently novel

How would you rate orthographic and grammatical style of the represented material?:

Mostly accessible

Detailed comments. Feel free to make comments and notes on the manuscript:

Please explain briefly how to obtain the DOE value; It is preferable that the effect on ethanol concentration as shown in section 3.1, is obtained from the experiment, not from references.

Recommendation::

Publish in minor, required changes

Reviewer D:

Is the topic appropriate for publication in this conference?:

Yes

Is the paper scientifically sound?:

Yes

Is the coverage of the topic sufficiently comprehensive and balanced?:

Yes

How would you describe the scientific depth of the paper?:

Appropriate for the generally knowledgeable individual working in the field

How would you rate the overall organization of the paper?:

Satisfactory

Are the abstract satisfactory?:

Yes

Are symbols, terms, and concepts adequately defined?:

Yes

How would you rate accordance of material to the conference requirements?:

Good

How would you rate the technical contents of the paper?:

Good

How would you rate the novelty of the paper?:

Sufficiently novel

How would you rate orthographic and grammatical style of the represented material?:

Mostly accessible

Detailed comments. Feel free to make comments and notes on the manuscript:

Since the result of check for plagiarism of the paper is 45 percent. it Seems to many phrases have been taken from the already published papers.

Please to reduce the level by re-paraphrasing the sentences by your own style. dont forget to include source citation.

Recommendation::

Publish in minor, required changes

1st International Conference on Engineering, Science, and Technology
Innovation (ICESTI 2014)
