My Worst Day Ever

I was on 9<sup>th</sup> grade when I have to do my exam for traditional dance. I was at St. Maria Junior High School at that time. The exam was to make a show for every class.

One day, I have to practice for the exam after the school ended. Then, I heard someone said, "What time does the practice end?" I answered, "At 4 p.m." Suddenly, my friend who asked the question came to me and said, "Hey! I'm not asking that question to you. And please, don't yell at me." She also didn't want to come to the practice. Unfortunately, she is the main character. She told everyone at my class that I'm a bad girl. She also told her friends from another class, so a lot of people talked about me. First, I felt very upset. Then, one of my best friends came to me and said, "Talk to her and say that you're sorry. And also ask her to join the practice because our class needs her."

After that, I came into my friend who angry with me and said, "I'm sorry because everything that I already did. Please, tell everyone that our problem is just because miss understanding and please come to the practice because I don't want to ruin the show." My friend answered, "It's okay. And I definitely will come to the practice." Then, she hug me. I felt very lucky to have a friend like her. From that experience, I learned for being a person who have patience.

## JAWABAN URAIAN

It was when I still in elementary school I and my brother always argue about stupid things. That day my mom went to somewhere and I alone with my brother. If I remember correctly that day my housekeeper watched television. I always annoyed my brother because he is bad-tempered.

That night I hid his dearest thing. And he always knows that I'm the one who hid it. He was already so mad at me. And I was not admit it. Just about he is going to hit me, and I admit it. He was already so furious. And he locked me in terrace. Honestly, I hate to be alone, not just hate but I'm scared. And I kicked the window several times. And suddenly the window is broken. That time I was so speechless, I just saw my feet in the middle of the window. My brother was scream so loud. I pull my feet and it start bleed. My housekeeper don't know what to do. Not long after that my mom came home. She was shock and pour some sugar to stop the bleed. But it won't stop.

So she take me to clinique and I have small surgery. After that my brother said sorry. But what I think is if I wasn't do that, I don't have to have a surgery. The root of the problem was me because I hid his dearest thing. So I said sorry too to him. After that incident I never annoyed him. I always tries my hard to prevent us from arguement. I try to act more mature. And now we just do things greatly without arguement.

## The Worst Day

When I woke up on Monday, I was ready to go to school but suddenly I feel my head eye is spinning around and at the same time I got headache. So I ask my father if I could stay at home and rest, he said yes. I remembered that today my class will have so many test exam and remedial test. I think I'll do all that on Wednesday when my school having holiday because the next day is the day that all students from ten grade and eleven grade having a "UKK".

On Tuesday I asked the Mam Endang if I could have Retest ~~tomorrow~~ tomorrow, she said it should be done today, so I'll have that retest at 10.00 am. Next I look to Mam Anita from Biology to have Remedial test for Biologi but she said the same thing as Mam Endang, the test should given today at 10.45 am. I began to panic because I have two test that will be held on one day. The true is that I'm not ready, I haven't learn anything. So I run back to my class and ask my friends if they could teach me some before I do all the test. None of them could teach, that is because they don't bring any book which I needed to.

After that the clock has point ~~at~~ to 10.00 am, so I go to ~~teacher's~~ teachers room and come to Mam Endang desk and ask for the Retest. When I get the paper and read it I'm so happy because it was very easy. I just need 15 minutes to get it done. Next I go to Mam Anita desk and ask for Remedial test, but suddenly Mam Endang come to me and said ~~that~~ that my Re-test only get 70 that makes me so sad and shock, I feel that I can do the test very easily.

Not my Day

That day, I went to cut my hair, <sup>bought</sup> a pill, and bought a new hair gel for my hair. I prepared the schedule to do that all. First I will go to cut my hair in Dynarsori <sup>Salon</sup> which the owner is Sonny. And then I want to bought a pill and a hair gel.

There was an unexpected fact that Sonny's Salon was closed. It's very disappointing for me because it is closed in Thursday not Tuesday. And then I continue my schedule, I go to the drug store. And that happened again, the drug store is closed too, I ~~was~~ very ~~angry~~ felt disappointed again. And I still continue to my next schedule to buy a new hair gel in Indomaret. Absolutely Indomaret open 24 hours. But there is an accident, I was very angry because my bike holder <sup>was</sup> broke. I leave it to buy a new hair gel for a while.

In Indomaret I look for a new hair gel which is Gatsby's product. <sup>on</sup> the price tag, that price is seven thousand rupiahs, and I brought twenty thousand rupiahs, so I bought some <sup>chocolate</sup> that called Snackers for me and my little sister.

At the cashier, the real price of that new hair gel was thirteen thousand rupiahs, I was very shame because I ~~did~~ didn't brought much money to buy it because I have bought two chocolate that price five thousand rupiahs. So I hold to buy the new hair gel, because that new hair gel is use less when I think that I wasn't cut my hair.

Go to school or Stay at home ?

Two months ago, I had a bad experience. I had a test so I studied the day before I had the test. It was Sociology test. I studied from 6 p.m. until 2 a.m. I slept for 2 hours and when I woke up, I didn't felt well. I had a headache, stomachache, and cold. I wanted to stay at home but I was really ready for the test. Finally, my mother gave me a medicine and after about 30 minutes, I was cured.

I went to school very late. I almost opened my classroom's door, but the morning pray started. I had a punishment, but thankfully I still could do the test. I started to felt not right again, but I had to do my punishment. My friends laughed at me because I came late.

It was really a bad day and I wouldn't had it again. However, I passed the test.

The Worst Day I Have Ever Had

One day when it was Friday. It's still in the morning. I came to school. After I arrived at school, I went into my class, the X0 class, to put my bag on the table. Then I went down stair again to go to the restroom. When I want to back to the class, I meet a teacher and I said "Good Morning, Miss" to her.

Unfortunately, when I said that to teacher, the teacher also said it but her eyes looked at my shoes and the teacher knew that I was wearing red shoes rope. Then she told me to went to the punishment room to change my shoes rope with black rope. But I didn't change it because it will make shy because of the freshly black rope.

On the second break, I went to her class to get her signature, and she knew that I still didn't change my shoes rope and after that she gave me a negative point.

That day give me a lesson to not disobey the school rule and made me more discipline. And after that I never wear another colouring rope except the black one.

#### The worst Day I Have Ever Experienced.

Hi, I want to tell you about the worst day I have ever experienced. It happened on last Friday. I got 3 remedial tests and 1 math test. I think it's gonna be a worst day. My first remedial test is English extensive. Everyone who taken the remedial test was cheating and ma'am Gaby not realized that. My second remedial test is Regular English. I'm not ready for did this remedial test. Well, I can't take it anymore argh...! The next test is Math. Our favorite Math teacher give us hard question. And guess what? I had remedial again after Math lesson. My last remedial test on that day is biology. I think I can do that easily. After school I was trapped in traffic jam. I'm arrived at home at 4 o'clock. After that I must prepare for go to the doctor for my weekly injection. At the doctor I must queue until night. I realized that tomorrow we are going to have Chemistry exam, and I forgot to study. I might die at that day because of stressed out. From this experience, I will do the best for my final exam for fix my Report book.
