As It Happened

One very spooky encounter with the UFO (an unidentified flying object) occurred in May 1974 involving a couple driving from Zimbabwe to South Africa.

As they carefully drove throughout the night they saw flashing blue-white light that was going on and off in a slow, steady rhythm. Shortly after noticing this, the car was covered in a bright circle of light.

Inside the car it suddenly became very cold. The couple wrapped themselves in thick blankets and turned on the heater but they still shivered.

Then their car began to act very strangely. Suddenly the headlights went off, the brakes failed, the steering wheel locked and the fuel gauge showed empty. Next the car began speeding up and raced along the road at 190 kilometres an hour. To one side of the car, the UFO continued to follow.

The driver and his passenger lost consciousness. When they awoke they were near the small town of Fort Victoria. The car's odometer showed that only 12 kilometres had been traveled, yet the distance from where they first saw the UFO to Fort Victoria was 290 kilometres.

Although the couple's description of what happened contained plenty of details, many people find it hard to believe that UFO does exist.
